

WINGCOPTER

WE DELIVER
THE FUTURE

- STRICTLY CONFIDENTIAL AND IP OF WINGCOPTER -

A large group of diverse children and adults are jumping joyfully in a field under a clear blue sky. In the foreground, a white drone is visible. The text 'About Us' is overlaid in the top left corner.

About Us

Our Vision

We create efficient & sustainable **drone solutions** to **improve and save lives**. Everywhere.

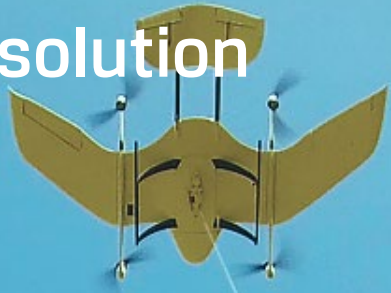

An urgent need

Many **companies & organizations struggle** to transport urgently needed supplies to their final destinations due to congestion and challenging terrain, **causing delays in delivery and high costs.**

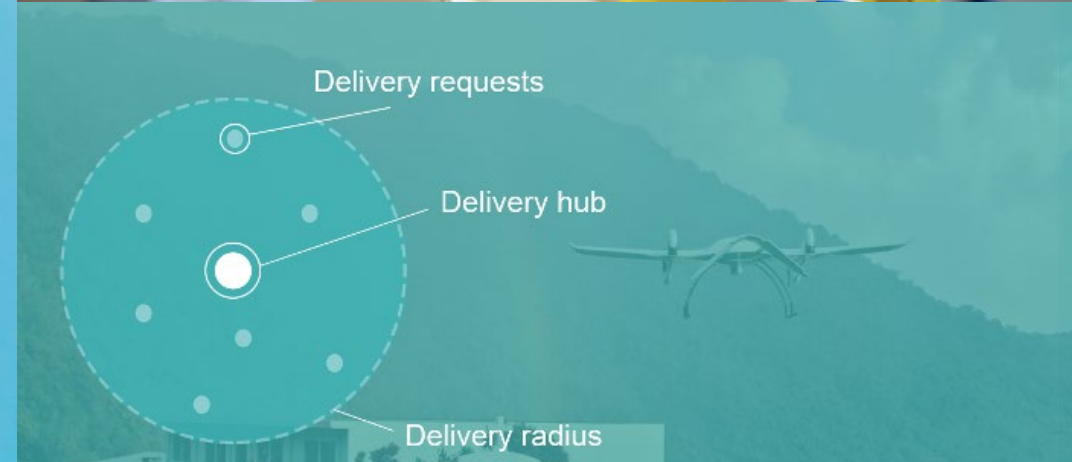

Our **solution**

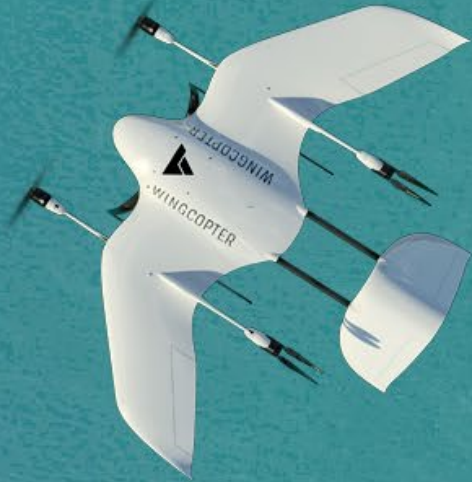

Wingcopter delivers

Wingcopter's patented technology platform and **routine delivery** networks provide **on-demand** access to urgently needed supplies.

It reduces the waiting time from days to minutes.

We manufacture and operate **vertical take-off and landing delivery drones** that fly autonomously beyond visual line of sight.
